COURSES

WEB DESIGN
10 Minute School | Dhaka

Officially I started to learn web designing here. I also learn many thing from youtube regular basis. In this course I learn basic HTML, CSS, Bootstrap etc.

SOME OF MY WORK

COLLEGE ADMISSION VIVA

https://salehinislam.github.io/college_admission_viva/

I use HTML , CSS and Bootstrap here. Every year many student do panic for lack of resources regarding viva time of college admission time . So I make a repository to compile our viva experience through this website.

DEV CHALLENGE CARD

https://salehinislam.github.io/dev-challenges-card/

I use HTML and CSS to make this simple card. Make it fully responsive for all device.

BD TAX CALCULATOR

https://salehinislam.github.io/bdx_tax_calculator/

Another interesting task for calculating Tax using, HTML, CSS and Javascript. Here you can easily calculate your income tax by giving your data.

FRUIT BURST

https://salehinislam.github.io/food-burst-assignment/

I use Tailwind CSS and Daisy UI to make this. Interesting Fruit website.
